Tonight USADB CPR-Tom Morrison called an emergency meeting to discuss an issue that was unclear. The issue at hand was a misprint in the minutes from St. Louis. The problem revolved around Free Agency. After speaking with a USADB board member it was noted that there was a typo error and has been corrected and the situation is deemed rectified.

BPAC then opened discussion about introducing Restricted Free Agency to our players guide. It was discussed that we will present a motion in the future granting free agency. Meanwhile, we will further discuss this idea through email. The brainstorming will begin as soon as possible with intents to discuss this again at our next meeting. We will narrow down the suggestions at that meeting and use it to file our motion in Orlando, Florida in April at the national tournament.

The meeting was adjourned at 8:05 CST.
